Why sponsor BIMHarambee?

No cost to attend for delegates We believe that access to good BIM information should be free and accessible to everyone.

Free access to information We always share ALL our content (ppt presentations, videos of our sessions and presentations etc.) after the event on our website.

It's a brilliant community event, filled with passionate professionals who want to make a difference, share their knowledge and expertise, inspire the next generation but also fire up current professionals - who want to help Raise the BIM tide, because we all win if we all win.

We will tackle slow BIM uptake from senior executives and the challenge of providing the relevant BIM skills and talent in a time when we're straddling 2 worlds in the built environment - analogue vs digital.

Executives and professionals You get to present your solutions to a captive and hungry audience - present and future market.
